

# Everton Tiago dos Santos Torres

## Physical Engineer

With experience in academic monitoring within the electronics laboratory, acting in scientific initiation with a research project focused on the area of synthesis and characterization of materials. Acting as a production leader in the consumer goods industry. Master's degree in Materials Engineering at UTFPR. I am familiar with material characterization techniques such as photoluminescence, UV-Vis spectroscopy, FTIR, DRX, SEM, MET and TGA. Experience with synthesis and physical-chemical analysis.

## Professional history

### 2019 - Currently **Laboratory assistant - Engineering**

Indrel Scientific, Londrina, PR

- Develop, together with the R&D/Engineering manager, tests of new products; analyze electrical circuits and control logic; aid from assembly of prototypes; contact component suppliers; test and homologate new components.

### 08/2021 – Currently **Electronic Tutor**

Unicesumar, Londrina, PR

- Monitoring students of engineering courses (EaD) through the Virtual Learning Environment.
- Perform corrections of activities of engineering matters.

### 07/2018 – 06/2019 **Leader of production**

Vector Musical, Maringá, PR

- Manage production orders and raw material purchases; delegate work functions; develop, together with managers, new working methods and tools; Dispatch management of products

## Education

### 2019 **Master's in Materials Engineering**

Federal Technological University of Paraná (UTFPR) - Londrina, PR

Dissertation: "synthesis and study of optical properties of heterostructures of the cds/zns core/shell type for applications in optoelectronic devices".

### 2018 **Physical Engineer**

Federal University of Western Pará (UFOPA) – Santarém, PA

Dissertation: "Synthesis and characterization of metallic oxides for supercapacitors".
