PROJECTS

Allumini portal

An alumni portal is a platform where the college, alumni and the institute/college students can interact with each other for their benefit. The students can share their views or queries or experiences on to portal regarding certain events and internship opportunities.

Digital visitor counter and face recognition

This project with counting the visitors number also make a catalogue of present students. It captures the image of student who is in front of camera and match with uploaded database if it matches then it is consider that student is present otherwise not. So with the help of this feature teacher can save presenty time of 15-20 minutes
