CAREER OBJECTIVE

As a data science student seeking a data analyst position, my career objective is to leverage my strong analytical skills, programming proficiency, and passion for data-driven decision-making to contribute to the success of an organization. I aim to apply and enhance my knowledge of statistical analysis, data manipulation, and visualization techniques, while gaining hands-on experience in working with real-world data sets. I am eager to collaborate with a team of experienced professionals, learn industry best practices, and utilize cutting-edge tools and technologies to extract meaningful insights from complex data. Ultimately, my goal is to make a significant impact by translating data into actionable recommendations, driving strategic decision-making, and fostering innovation.

EDUCATION

MSc (DATA SCIENCE) REVA UNIVERSITY, INDIA CGPA 7.65	Bangalore, India 2022 -Pursuing
BCA (COMPUTER APPLICATIONS) M S Ramaiah College of Arts, Science & Commerce, India Received First Class CGPA 8.6	Bangalore, India 2022
II PUC (PCMC) M S Ramaiah Comp Pre-University College, India	Bangalore, India 2019

SKILLSET

Framework:	HTML5, CSS3, Bootstrap, JavaScript, Streamlit
Task & Design:	Microsoft Word, MS PowerPoint, Photoshop, MS Excel, Canva, Figma, GitHub
Analytical Skills:	Machine learning, Tableau, Python, SQL, Excel, Google Spreadsheets, Mongo DB
Soft Skills:	Attention to detail, Presentation, Teamwork, Communication, Strategic thinking,

PROJECTS

- MSc (DATA SCIENCE)**
- Classification of Diabetes Mellitus | Research Topic
 - Building Models using R Programming
 - Data Analysis using R & Python
 - Exploratory Data Analysis
 - Securing EHR data using blockchain | Research Topic
- BCA (COMPUTER APPLICATIONS)**
- Stock Market Trend Analysis using Machine Learning
 - LAN Based inter college chat application.

CERTIFICATIONS

- Certification of completion in "PYTHON" Kaggle
Learned the Fundamentals of python programming language.
- Certification of completion in "Machine Learning" Kaggle
Gained knowledge about Machine learning process and types.
- Certification of completion in "Scientific Computing using Python" FreeCodeCamp.org
Gained knowledge about Python and problem-solving skills and statistical methods.
- Certification of completion in "Data Analysis using Python" FreeCodeCamp.org
Learned about data cleaning techniques and how to perform EDA.
- Certification of completion in "Machine Learning" Ramaiah College of Arts, Science and Commerce
Gained knowledge about fundamental concepts of Machine learning.
- Certification of completion in 'Cryptography using Python' Reva University
Learned different cryptography techniques and how to implement them and real-world applications.
- Certification of completion in 'Data Science with Python' Reva University with industry experts from Xchange.
