OBJECTIVE:

Experienced Senior PHP Full Stack Developer with 7 years of hands-on experience in designing, developing, and maintaining web applications and websites. Proficient in various technologies, including CodeIgniter, Laravel, JavaScript, jQuery, CSS, HTML5, AJAX, MySQL, and WordPress. Seeking challenging opportunities to leverage my skills in delivering high-quality, scalable, and user-friendly web solutions.

PROFESSIONAL EXPERIENCE:

1. Senior PHP Full Stack Developer

Aimbys Solutions
Ahmedabad, Gujarat
[August 2020 – Present]

- Lead the development of web applications, software, App and websites using PHP, Laravel, CodeIgniter, JavaScript, jQuery, HTML5, CSS, and AJAX.
- Designed and implemented database structures using MySQL for efficient data management and retrieval.
- Collaborated with cross-functional teams to gather project requirements, define technical specifications, and ensure timely project delivery.
- Additionally, adept at independently completing projects from start to finish, showcasing self-reliance and problem-solving abilities. Proven track record of delivering high-quality results as a solo contributor.
- Optimized website performance through code and database optimizations, resulting in faster loading times and improved user satisfaction.
- Conducted code reviews and mentored junior developers to maintain coding standards and best practices.
- Implemented responsive web design to ensure compatibility with various devices and screen sizes.
- Performed debugging and troubleshooting to identify and resolve issues, ensuring a seamless user experience.

2. Senior PHP Full Stack Developer

Mumbai On Web
[Mumbai, Maharashtra]
[August 2018 – July 2020]

- Successfully delivered web applications using PHP and CodeIgniter, meeting project requirements and deadlines.
- Implemented dynamic front-end features using JavaScript, jQuery, CSS, and HTML5 to create interactive and user-friendly interfaces.
- Collaborated with clients to understand their specific needs and incorporated custom features into web applications.
- Created and managed MySQL databases, ensuring data security and optimal performance.
- Developed and maintained custom WordPress websites, including theme and plugin development.
- Conducted performance testing and optimizations to enhance website speed and overall user experience.
- Provided technical support and resolved user-reported issues in a timely manner.

3. Full Stack Web Developer

Infocom Media

[Mumbai, Maharashtra]

[October 2017 – Jun 2018]

-Hospital Web Applications/software : Developed web applications tailored to the needs of healthcare institutions, including hospitals. Implemented features such as appointment scheduling, patient records management, and secure communication tools for healthcare professionals.

-Pharmacy Web Solutions/software: Designed and built web-based solutions for pharmacies to enhance inventory management, prescription processing, and customer interaction. Integrated systems for automated refills, prescription tracking, and real-time stock updates. Focused on user-friendly interfaces to simplify the pharmacy's daily operations.

-E-commerce Websites: Created and maintained e-commerce websites with a strong emphasis on user experience and conversion optimization. Implemented online shopping carts, payment gateways, and inventory management systems.

4. Full Stack Web Developer

Bay Creations

[Mumbai, Maharashtra]

[May 2016 – Jun 2017]

- Create a web portal using PHP, WordPress, HTML, CSS, JavaScript, and MySQL for online record-keeping, including requisitions, purchase orders, dispatch details, and product information. The portal also offers automated email notifications, inventory management, expense tracking, and generates MIS (Management Information System) reports
