Summary

Aspiring technology professional with knowledge of Python, data analysis, and web technologies. Eager to apply analytical thinking and technical skills to solve business problems while continuously learning and adapting to new tools and technologies.

Education

Seth JaiParkashMukandLalInstitute Of Engineering And Technology	2022-2026
Btech in Computer Science (CSE)	
S.D PublicSchool	2021-2022
Senior Secondary Education - PCM	
S.D PublicSchool	2019-2020
Secondary School Certificate	

Skills

- **Programming Languages** : Python (Core, OOP), C++, C, JavaScript
- **Web Technologies** : HTML, CSS, JavaScript (Basics)
- **Databases** : MySQL
- **Python concepts** : File Handling, Django Basics, Libraries
- **Data Structure&Algorithm** : Basics Python DSA (Arrays, String, Searching, Sorting)
- **Tools & Platforms** : Canva
- **Soft skill** : Problem Solving, Logical Thinking, Communication, Teamwork, Time Management
- **AI Tools** : Quadratic AI, Tableau, Jupyter Notebook, Kaggle

Projects

Image EditorApp

- Built an image editor application providing core image processing and editing features, gaining hands- on development experience.

Product Seling Website (Python, Django, MySQL)

- Developed a basic e-commerce web application using Python Django framework and MySQL database.

Company Sales Dashboards

- Created interactive sales dashboards using AI-assisted data analysis tools such as Quadratic AI to visualize revenue, profit, customer trends, and product performance.

Trainings

Data Science - CS Soft Solutions	Aug-Dec 2025
• Completed training in Data Science, gaining knowledge of data analysis, data visualization.	

Frontend - Webcom	July-Aug 2024
• Completed training in Frontend Development, building responsive and interactive web pages using HTML, CSS, and JavaScript.	

Data Structure - Dell Soft	July-Aug 2023
• Completed training in Data Structures and Algorithms, focusing on efficient problem-solving and optimization techniques.
