

Centre for Sophisticated Instruments and Facilities (CSIF), IIT Bombay

CSIF IIT BOMBAY- MSME/STARTUP MEET- 2025

The Central Sophisticated Instrument Facility (CSIF) at the Indian Institute of Technology (IIT) Bombay is a state-of-the-art research infrastructure that hosts a wide range of advanced analytical and characterization instruments, designed to support high-end research and development activities across academic institutions, industries, and national laboratories. As a nationally recognized facility, CSIF, IIT Bombay plays a pivotal role in supporting innovation and technological advancement across various sectors.

The goal of this meet is to empower MSMEs by providing access to advanced research facilities, technical expertise and knowledge sharing on the latest technologies in analytical instrumentations and their applications.

Venue: VMCC, IIT Bombay

**7th October
2025 (Tuesday)**
