To,
Dr. Atul Kulkarni
Research Professor and Head
Symbiosis Centre for Nanoscience and Nanotechnology, Pune
Symbiosis International (Deemed University)

Subject: Supervision of Ph.D. students
Engineering

Dear Dr. Atul Kulkarni

It is our pleasure and pride to acknowledge your contribution in undertaking research in your area of specialization. Your association with SIU as a member of the Faculty and as a Research Supervisor is valued by all of us at the University.
As a Ph.D. Supervisor, you have an important role in enhancing the students' capabilities so that they emerge as accomplished researchers in respective disciplines through their contribution to the existing knowledge base. The most important element of the research process is careful consideration and selection of the area(s) on a long term basis in order to gain recognition and what you wish to offer to the fresh incumbents to work with as a part of this strategy.
Following is the list of students who are undertaking doctoral research under your supervision.

1) Chaudhari Nitasha Balkrishna 2) Rutuja Subhash Gumathannavar

Please note that SCRI is the nodal administrative point for all kinds of purposes such as holding the presentations of research proposals, mid-term reviews and pre-submissions, etc. Always feel free to communicate with us, if you face any difficulty in the administrative matters.
Supervision to doctoral students is a joint research journey and combined with the support from SCRI let us maintain and enhance the rigour and standard of research output of our University.

We envisage a long and fruitful association with you both as a faculty and as a supervisor. At any point in time should you decide to resign from SIU please make sure that the students registered and working under your supervision, the role & responsibility in regards to Ph.D. students is smoothly handed over to the next supervisor. This timely and proactive action on your part will safeguard the interests of your students. Needless to add, do expect advisories to you and your students from time to time!
Pls. let us know if any change in designation, institute or student data is required to be done.
You may contact Ms. Kabita Parmar for clarifications if any- 020-66936919
