Dear Deepak Jain Sir,

I hope this message finds you well.

I am writing to request your approval for the use of **COMSOL (Wave Optics Module)** for my project titled "**Hollow core fiber**". After evaluating various options, I found that this software offers the tools and features required to effectively carry out the tasks involved in the project.

The software is provided by **COMSOL**, and it aligns with the scope and objectives of the work we have planned. If you approve, I will proceed with the necessary steps for procurement or installation as per the institutional or departmental guidelines.

Please let me know if you require any additional information or documentation regarding the software.

Thank you for your guidance and support.

Best regards,
Kiran Maurya
