To
The I-STEM Coordination Team

Respected Sir/Madam,

I hope this message finds you well.

I am Dr. K. Saminathan, Assistant Professor, Department of Chemistry, Kongunadu Arts and Science College (Autonomous), Coimbatore. I am currently involved in research activities related to electrochemical energy systems, including metal-air and sodium-ion battery technologies. MY ISTEM User id - PU_KSAMI001.

In connection with my ongoing research and project work, I kindly request access to **COMSOL Multiphysics** through the I-STEM portal. The software will be highly beneficial for multiphysics modeling and simulation of electrochemical processes, transport phenomena, and cell design optimization. Access to this facility will significantly strengthen the computational component of my research and support our students' training in advanced simulation techniques.

I assure you that the facility will be used strictly for academic and research purposes in accordance with I-STEM guidelines. I am willing to complete any required formalities or documentation to process this request.

Kindly consider my request and grant access at your earliest convenience.

Thanking you in anticipation.

Yours faithfully,

K.SAMINATHAN
