About Us

The I-STEM Web Portal: a National Portal that is the gateway for researchers to locate the specific facility(ies) they need for their R&D work and identify the one that is either located closest to them or available the soonest.

To protect the IP involved in building the I-STEM Portal, a provisional patent application entitled, "A method and process for efficient use of geographically dispersed resources", has been filed with the Indian Patent Office.

Indian Science, Technology and Engineering Facilities Map

Ref: I-STEM/intro_01/2022-23

Date: 30/06/2022

It has always been the basic tenet of the Government of India, in generously funding R&D efforts at academic institutions over the years, that facilities established through such support be made available to those needing them and qualified to make use of them for their own research work.

Know your Rights & Duties and Link Researchers and Resources of the Nation
Greetings from the Team I-STEM! It gives us immense pleasure to serve you better through the modules developed at the Indian Science Technology and Engineering facilities Map (I-STEM), an e-portal, launched by the Honourable Prime Minister Shri Narendra Modi considering it as one of the transformative ideas for the country. As you all know that Govt. (the Ministry of
